Happy New Year!

Thank you to all who were of service to the
Alkathon.

We would like to Thank our outgoing board member
Dan C. for his service on the board. You will be
missed.

Welcome to our new Board Members Tim D. and Di-
ane L.

We hope everyone had a
wonderful Holiday season.

Faithfully Yours in Service,
The Board Members

**We thank all of the birthday celebrants for their
contributions to the Central Office Birthday Club.**

7TH TRADITION CHALLENGE

"Now that we are sober in A.A., the word 'support' has to do with sharing, people, self-respect, gratitude, and what we are privileged to give - not take - in material terms."

We are self-supporting through our own contributions ~ Many of our branches are suffering from lack of support (GSO, Area, H&I, Central Office). How much does one drink cost? If it were not for Alcoholics Anonymous, we'd be drinking plenty!

Drop the cost of one drink into your home groups basket when it comes by... you can't afford not to!

Step One: The A. A. Launch Pad

She didn't find it Too Comforting.

By Rick R.

I was sitting at a meeting recently when I heard a very young, and very sincere, single mother of two, sharing that her first experience in A.A. was the thought of having to do all this stuff for *the rest of her life* and she *didn't find it too comforting*. It sounded to me that, from her perspective, *she knew that she had to do it, but it wasn't going to be easy or fun*. I admired her for her *courage and conviction* and I tried to encourage her by explaining things that I had experienced when I was faced with the life changing challenges of sobriety. I was the father of a boy, I was in the Navy at the time, and was divorced. It was a difficult time but I had to go through it, drinking or not. I began the process of recovery in a slow, methodical and thorough way, and I came out a stronger person for it. I likened it to the first *Apollo space mission to the moon*. *It goes something like this*: When you first see the size of this space craft and consider the amount of energy it would take to put it into space, it is hard to fathom. After the countdown is complete, the engines fire and a tremendous amount of flame and smoke engulf the entire area, and in a few moments, it slowly starts to lift off. As it lumbers its first few hundred feet, it is expending a tremendous amount of fuel. Slowly it starts to gain momentum and pick up speed, still shuddering along. Soon the booster tanks are depleted and they are ejected and the main tanks begin to propel it further along the flight path with even more thrust as it is reaching for orbit. Next, the main tank is depleted just before orbit and is ejected. What is left is a very small portion of what left the launch pad. Soon the craft leaves orbit and heads toward the moon and *something else happens that sometimes goes unnoticed*. Somewhere between the earth and the moon, the gravitational pull of the moon has more influence on the craft than the earth's has, and it is gently drawn along its path. Very little energy is needed at this point except for minor course corrections. In A.A.; when we first get started, it appears to be an insurmountable task and it requires a tremendous amount of effort just to get off the launch pad. Not every launch is successful and some of us don't make it the first time, and we have to exert all that energy in each successive attempt. As we do get on our way, it starts to get easier as we increase our momentum. Much of the burden falls away as we make progress, and the going gets easier as we head for our objective. When we go through the *twelve steps*, we finally reach orbit. After we are satisfied that everything is in order, we can now set out for the moon. If we stay on course, the spiritual gravity of values we have adopted in the A.A. program will far outweigh the negative gravity of the past as long as we eject all of the dead weight that held us down. As we continue to adjust the day to day, mistakes that we make, and adopt an unselfish approach to life, somewhere along the flight path, we will cross that line where we are drawn towards a life of peace and serenity that is hard to imagine when we are setting on the launch pad. The most important part of the journey is the lift off. If we can get through that most difficult time, it does get easier, and then we need only to stay the course.
